Experience

Trialbee (trialbee.com) *Full Stack Developer* **2012 to present**
Took over development of a prototype Ruby on Rails application as the sole developer to convert the prototype into a full-fledged SaaS service.
Developed everything from the UI to statistics dashboards, as well introducing and migrating our infrastructure to Amazon Web Services. Introduced testing, in the otherwise untested application, using RSpec and Jasmine.
Technical Environment Ruby on Rails, JavaScript, RSpec, MySQL, AWS.

Sprinkle (sprinkle.se) *Consultant* **2013**
Developed a inline WYSIWYG content management system for Sprinkle.
Built and deployed the system end-to-end.
Technical Environment Ruby on Rails, JavaScript, Turbolinks, postgreSQL.

Lunicore *Consultant* **2012 to 2013**
Worked as a web developer for Lunicore. Which meant communicating and understanding customers needs and then deliver.
Technical Environment Ruby on Rails, JavaScript, HTML5, CSS, AJAX.

Transputec Ltd. *Summer internship* **2012**
Developed a cross-platform HTML5 application for an in-house PrestaShop deployment.
Technical Environment JavaScript, AJAX, Phonegap.

Projects

Swedish Translation Coordinator at bitcoin.org bitcoin.org
Took over as the Swedish translation coordinator (2014) for bitcoin.org, because I've always been fascinated by the technology behind Bitcoin.

git-story git-story
Started out as a project, at Lunds Technical University, to help younger student get acquainted with Git. Grew into a project to learn more about Git and includes some other niceties.

Education

Master in Computer Science and Engineering 2009 to 2015 (expected)
Lunds Technical University, Sweden
